

“Making Memories...
...enjoying Simple Pleasures!”

Exploring

Laughing

Natural Wonders

Family Picnics

Beach Combing

Leave the frenzy of juggling work, school, shopping, sport and cooking behind with this fun and educational itinerary for the whole family.

Day 1 Perth – Busselton

Getting to Geographe Bay from Perth has become a lot faster with the opening of the Forrest Highway, cutting half an hour off your travel time. Use that extra time to visit the *Dolphin Discovery Centre* (see page 45) at Koombana Bay in Bunbury for some fun and education. Parents and children alike will be amazed as groups of dolphins visit the shallow waters in front of the Centre or head out on an Eco Cruise. The Discovery Room allows families to learn more about dolphins. Continue to Busselton and head to your accommodation for the evening.

Day 2 Busselton

Start the morning in Busselton with a leisurely walk along the newly refurbished Busselton Jetty (reopening April 2010) – at its end you will find the *Busselton Jetty Underwater Observatory* (see page 44) where you can discover life under the sea, without getting wet! Descend 8m below the waters surface and uncover an awe-inspiring “forest” of vividly coloured corals, sponges, fish and invertebrates. Lunch on the Busselton beachfront and then spend the afternoon

playing on the shores of Geographe Bay. Have a game of beach cricket, build a sandcastle or just relax and enjoy the view.

Day 3 Busselton – Perth

This morning it's off to *Wonky Windmill Farm and Eco Park* (see page 46). Feed pigs, ponies, alpacas, emus and many other friendly farm animals. Cuddle guinea pigs and rabbits in the animal nursery and learn about the animals from information boards.

The family holiday is about spending quality time together.

Parents can enjoy tastings of preserves, jams, marmalades, table olives and extra virgin olive oil or simply take in the tranquil rural surroundings with a devonshire tea as the kids play on the lawn. Sadly, it's time to head home!
