

“Beauty abounds...
...offering Something
for Everyone!”

Camping

Fishing

Beach Walks

Cycling

Some of the best things in life are FREE and this two day itinerary shows you how you can get the most out of the region without breaking the bank.

Day 1 Geographe Bay

Before you arrive in Busselton, make sure you have got yourself a *WA Pass* (see page 52). Full of discount offers and hot deals for accommodation, tours, restaurants, wineries and breweries, it's the essential travel companion for those on a budget.

There is plenty of reasonably priced accommodation in the region, ranging from camping to backpackers to motels. Ask the staff at *Busselton Visitor Centre* (see page 53) to recommend a place that suits your budget and needs.

If you have bought along your bike then the Geographe Path is a great place to start. No problems if you haven't - hire one on arrival or walk instead!

The 14km route hugs the beachfront from Port Geographe past the historic Busselton Jetty and is a leisurely one hour bike ride, or four hour walk.

Stop along the way for a swim or simply to take in the stunning views over Geographe Bay.

Day 2 Geographe Bay

If you are staying over a weekend, be sure to pay a visit to one of the *Town Markets* and indulge in some competitively priced fresh local produce, much of which is organic. Purchase extra supplies for today's lunch. Soak up the atmosphere as you make your way through the stalls - you'll be sure to find a unique souvenir at a great price.

Budget travel doesn't have to mean missing out

From here, cycle or drive to the *Ludlow Tuart Forest* where you can enjoy your tasty treats in a peaceful setting surrounded by towering trees. Afterwards, embark on one of the many walk trails in the region, such as *Ambergate Reserve*, to really appreciate the beauty of local flora and fauna.
