LAKE ST CLAIR

# Lake St Clair

Lake St Clair is nestled among the undulating hills at the foot of Mt Royal Range approximately 30 minutes north of Singleton.

The lake provides a premium outdoor leisure facility. Swimming, sailing, water skiing, camping and fishing are only a few of the popular activities enjoyed on the lake.

For the keen fishermen Lake St Clair has been stocked with Bass, Golden and Silver Perch and Catfish. The restocking of fish into the lake by the NSW State Fisheries and local fishing clubs is ongoing.

Lake St Clair was formed by Glennies Creek Dam in 1983. The dam supplies water for domestic use in Singleton, irrigation, coal mining, and stock purposes. The dams biggest users are the vineyards and pasture lands.

The foreshores of Lake St Clair provide attractive areas for picnicking and barbecues, and the road following the eastern shoreline on Carrowbrook Road is a particularly scenic drive.

## GETTING THERE

From the Visitor Information Centre travel north over the Singleton Crossing Bridge. At the traffic lights approximately 0.5 km past the bridge turn right into Bridgman Road. Travel along Bridgman Road which leads onto Carrowbrook Road for 35 km.

A turn off to the left 27 km out will lead you to the Glennies Creek Dam wall, or continuing another 8 km you will reach the St Lake Clair recreation reserve and boat ramp.
